What is a Bond?

A fixed rate bond is a form of borrowing by a company seeking to raise funds from investors. The bonds have a fixed term and a fixed rate of interest. The company that issues the bonds promises to pay a fixed rate of interest to the investor until the date that the bond matures (i.e. in the case of the Bonds, their Maturity Date) when it also promises to repay the amount borrowed.

A bond is a tradable instrument; meaning that you do not have to keep the Bonds until the date when they mature. The market price of a bond may vary between the date when it is issued and the date when it matures.

As with any investment there is a risk that a bondholder could get back less than their initial investment or lose all their initial investment, including if they sell their bonds at a price lower than that which they paid for them.

You should refer to the “Important Information” and “Key Risks of Investing in the Bonds” sections on pages 2-4 and 10-11 of this Information Booklet and to the “Terms and Conditions of the Bonds” as set out at page 62 onwards in the Prospectus.

A copy of the Prospectus will be provided to you by your stockbroker or financial adviser upon request.

Key risks of investing in the Bonds

A number of particularly important risks relating to an investment in the Bonds are set out below. You must ensure that you understand the risks inherent in the Bonds. The risks set out below are not intended to be a comprehensive list of all the risks that may apply to an investment in the Bonds.

You should seek your own independent professional investment, legal and tax advice as to whether an investment in the Bonds is suitable for you. You should be aware that you could get back less than you invest or lose your entire investment.

Full details regarding the risk factors relating to Bruntwood, and the Bonds are set out in the section headed "Risk Factors" on pages 10 to 24 of the Prospectus. Please read them carefully.

Risks relating to the Bruntwood Group's business operations:

- The ability of the Bruntwood Group to raise funds to roll-over or refinance on similar terms to the Bruntwood Group's existing debt financing, or at all, its existing debt facilities, which are currently set to mature on dates ranging from 8 June 2020 to 22 December 2031, will be dependent on a number of factors including general economic, political, debt and equity capital market conditions, funding availability and, importantly, the appetite of financial institutions to lend to the property sector.

Risks relating to the structure of the Bruntwood Group that may affect the Issuer's and Guarantors' respective abilities to fulfil their obligations in relation to the Bonds:

- The sole function of the Issuer is to act as a special purpose company to raise money, by the issue of securities, for on-lending to the Bruntwood Group for its general corporate purposes. The Issuer will have no tangible assets of its own and the Issuer's only material assets will be the obligation of the Parent Guarantor and other members of the Bruntwood Group to pay interest on and to repay such on-lent funds on a timely basis. As the funds needed to pay interest on the on-lent funds and to repay the on-lent funds will originate from cashflow generated from the wider business of the Bruntwood Group, the Issuer's ability to meet its payment obligations under the Bonds is subject to all the risks to which the Bruntwood Group is subject.

- The Parent Guarantor's principal business is that of holding shares in its subsidiaries. It conducts all of its operations through its subsidiaries and is dependent on the financial performance of its subsidiaries and payments of dividends and inter-company payments from these subsidiaries to meet its debt obligations including its ability to fulfil its obligations under the Parent Guarantee.
- The Subsidiary Guarantor's sole assets are the benefit of intercompany receivables from other subsidiaries of the Bruntwood Group and excess cash of the Bruntwood Group (if any) from time to time. So, its ability to make payments pursuant to the Subsidiary Guarantee is dependent on the repayment to it by other Bruntwood Group entities of those intercompany accounts, and the extent of generation of surplus cash by those other subsidiaries.

Risks relating to investing in property:

- The valuation of property and property-related assets is inherently subjective and investments in property are relatively illiquid and typically more difficult, and/or take longer, to realise than certain other investments. There is no assurance that the valuations of the Bruntwood Group's current and prospective properties will be reflected in actual transaction prices, that estimated yield and annual rental income will prove to be attainable or that the Bruntwood Group will be able to dispose of, or liquidate, assets from its property portfolio expeditiously and at satisfactory prices if it were required to do so.
- As at 30 September 2019, approximately 83 per cent. of the rental income generated by the Bruntwood Group's property portfolio relates to conventional office space. A given

Key risks of investing in the Bonds

property's age, condition, design and ability to offer certain amenities to customers all affect the ability of such property to compete against other office properties in the area belonging to competitors in attracting and retaining customers.

Market risks relating to the Bruntwood Group's business:

- Returns from an investment in property depend largely upon factors which are outside the Bruntwood Group's control, including changes in the relevant property's market value, the costs and expenses incurred in a property's maintenance and management, as well as the amount of rental and other income generated by the property. The latter may depend on the financial stability of the Bruntwood Group's customers. If for whatever reason the Bruntwood Group's customers cease to pay rent or other charges, the revenue generated by the rental of properties will decrease.
- All of the Bruntwood Group's properties are located in the United Kingdom and are concentrated in Manchester, Greater Manchester, Liverpool, Birmingham and Leeds. In this way, an economic downturn in the UK (and in particular, in Manchester, Greater Manchester, Liverpool, Birmingham and/or Leeds), either as a result of microeconomic or macroeconomic factors, could materially adversely affect the Bruntwood Group's business, financial condition or results of operations as well as the market value of the Bruntwood Group's property portfolio.
- Both rental income and the market value of properties may be affected by factors specific to individual properties, such as competition from other nearby properties and the perceptions of prospective customers of the relative attractiveness, convenience and safety of properties. Additionally, competition in the property market may lead to prices for properties identified by the Bruntwood Group as a

suitable investment opportunity being driven up through competing bids by potential purchasers.

Summary of general risks affecting the Bonds:

- The Bonds are not protected by the Financial Services Compensation Scheme ("FSCS") or any equivalent scheme in another jurisdiction. As a result, neither the FSCS nor anyone else will pay compensation to Investors upon the failure of the Issuer, the Guarantors or the Group as a whole.
- Defined majorities may be permitted to bind all Bondholders with respect to modification and waivers of the Bonds Conditions, even if some Bondholders did not attend or vote.
- The Bonds do not have an established trading market when issued, and one may never develop, or may develop and be illiquid. Investors may not be able to sell their Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.
- The Bonds bear interest at a fixed rate until the Maturity Date and this exposes Bondholders to potential prevailing interest rate and inflation risk over the term of the Bonds.
- Although Peel Hunt LLP will be appointed as a market-maker when the Bonds are issued, there is no assurance that the market-maker will continue to act as a market-maker for the life of the Bonds and a replacement market-maker may not be appointed, impacting the ability to sell the relevant Bonds.

History and development

The Bruntwood Group was established in 1976 by Mr M J Oglesby and his early business partner as a family-owned and managed property company. The purpose of the Bruntwood Group at its outset was to invest in old mills and industrial units such that they could be refurbished and repositioned for use by smaller owner managed businesses. However, from 1979 onwards, the wider economy of the principal commercial centres of north-west England experienced a general move away from its traditional manufacturing industry to a service led industry. As a consequence, the Bruntwood Group changed its focus to the acquisition of well-located but often neglected commercial office properties in order to develop them to a higher presentational standard to let to its customer base. The first site was located in Manchester. Further sites were then acquired in Manchester and Greater Manchester, and later, Liverpool, Birmingham and Leeds.

Today the Bruntwood Group is a leading regional provider of high-quality office space to a wide range of public and private sector business customers located in Manchester, Greater Manchester, Liverpool, Leeds and Birmingham. The Bruntwood Group places an emphasis on its customer service by locating dedicated teams within each of its buildings in order to respond to each of its customers' needs quickly and

to ensure that all systems within the buildings continue to operate correctly.

The Bruntwood Group places a particular emphasis on the development of strong relationships with its customers and it lets and manages its floor space according to the needs of its customers. The Bruntwood Group aims to achieve this by offering office space to its customers in a flexible and progressive manner through conventional leases, short term serviced office licences and all-inclusive fully managed leases. A primary aim of the Bruntwood Group is to provide office space in this manner for each stage of a customer's business development cycle.

The Bruntwood Group aims to be fully embedded within the communities in which it operates and therefore works closely with local civic, academic and health partners. Since 2012, through these partnerships, the Bruntwood Group has diversified its operations into Science, Health and Technology and owns a number of science parks and innovation centres devoted to growing these sectors. In 2018, these properties represented approximately one quarter of assets owned and it was decided to sell equity in this part of the business, forming Bruntwood SciTech Ltd, a 50:50 Joint Venture with Legal & General Plc. With the combined financial power of Legal & General and Bruntwood, SciTech aims to expand its operations both within and beyond the Group's core cities. The Bruntwood Group now operates under two key brands, being Bruntwood SciTech (the joint venture with Legal & General) and Bruntwood Works (the wholly owned office focused business).

The Bruntwood Group continues to adopt a family-owned and managed structure. Mr M J Oglesby founded the Bruntwood Group and his son, Mr C G Oglesby, took over as Chief Executive in 1999. The Bruntwood Group's activities are directed through a single unified corporate management and control structure which is run by the board of Directors (the "**Group Board**") sitting at the level of the Parent Guarantor. The Group Board is responsible for designing and managing the strategic direction of the Bruntwood Group, major

funding and acquisition decisions and controlling the corporate management and operational structure of the Bruntwood Group.

The 50:50 Joint Venture, Bruntwood SciTech Ltd is controlled by the SciTech Group Board consisting of two Bruntwood directors, namely Mr C G Oglesby and Mr K J Crotty, together with two directors nominated by Legal & General.

The day to day operation of Bruntwood Works and Bruntwood SciTech is delegated to their respective management boards, headed by Ms C Keeling and Mr P Kemp. Both Ms C Keeling and Mr P Kemp sit on the Group Board.

Principal Activities and Markets

Office Space

- The Bruntwood Group offers flexible office space within a range of building styles from architecturally-significant and refurbished listed buildings through to high tech office centres and corporate headquarters. The Bruntwood Group owns a portfolio of 110 buildings across Manchester, Greater Manchester, Liverpool, Leeds and Birmingham. The Bruntwood Group's customer base consists of businesses with staff head count totalling from one person to several hundred people. The Bruntwood Group owns its buildings through a combination of freehold and leasehold titles and each of its properties is operated by its in-house customer service and facilities management teams. The Bruntwood Group offers its office space to its customers on leases which vary in tenure from one month to 25 years and upon flexible terms which enable customers to move their business within the Bruntwood Group's office portfolio as their needs dictate.
- As part of its office space product offering, the Bruntwood Group also provides fully serviced offices focused on smaller start-up businesses looking to avoid the costs of committing to lengthy lease terms in their early years, meeting room facilities for use by new

and existing customers, virtual offices, storage space and car parking. In addition, larger offices are now offered on a fully managed 'turn-key' basis (meaning, the offices are already fitted out for the relevant client) for those larger clients who want to completely out-source their office operations.

- In more recent years, Bruntwood's model has evolved to offer the different types of occupation within the same building with enhanced shared space and amenity which can be used by all customers. Customers of a similar sectoral focus have also been co-located and their collaboration encouraged through networking events and the Bruntwood collective app, an app that informs customers of the Bruntwood Group's events programmes, changes to customers' buildings, exclusive discounts and most importantly allowing the customers themselves to communicate with each other. The Bruntwood Group believes that clustering of like-minded businesses has aided customer retention and increased the estimated rental value of the properties.

Retail Space

- The Bruntwood Group's portfolio contains only 8 per cent. retail, 36 per cent. of which is ancillary retail space located on the ground floors of the Bruntwood Group's portfolio of office buildings. The Bruntwood Group believes its ancillary retail space enhances the attractiveness of the office environment of its buildings and therefore its ability to attract customers to its office space. The Bruntwood Group's retail portfolio consists of coffee shops, restaurants, local supermarkets, food and leisure operations whose product offering is aimed at office workers located within its buildings and trade from those passing by. The retail locations benefit from wide catchment areas with most located near to key transport hubs and associated significant passing customer traffic as well as customer footfall generated by other customers of the Bruntwood Group occupying office space of the Bruntwood Group at each location.

The Issuer and the Group (Cont.)

- The remaining 64 per cent. of retail space that the Bruntwood Group owns is dedicated town centre retail located in two well-located regional centres where the Bruntwood Group has partnered in a 50:50 joint venture with the local authority to re-position those centres, increasing the amount of residential and office space and changing the retail offer to service that repositioning. This is an example of how the Bruntwood Group's strong relationships with its civic partners has enabled the sourcing and funding of off-market opportunities.

Science and Technology Space

- The Bruntwood Group's 50:50 joint venture with Legal & General Plc, 'Bruntwood SciTech Ltd' is now one of the UK's largest operator by square footage of space dedicated to Science and Technology with 2.3 million sq. ft under ownership. The space offered includes office and lab space offered on flexible terms in a similar way to the core office portfolio (see above) with the addition of pay as you go scientific services to help start-ups who perhaps cannot afford the necessary equipment and resources on a standalone basis. In addition, SciTech offers a number of incubation services for start-ups and growing businesses as well as a life-science fund (which is run by an external fund manager) which can be accessed to help businesses through their early phase lifecycle.

Competitors

- The Bruntwood Group does not have a single direct competitor of equivalent market focus and presence that offers a similar range of products in the principal markets in which the Bruntwood Group operates. The competition that the Bruntwood Group experiences is of a fragmented nature.
- The Bruntwood Group experiences competition from smaller property companies with particular focus on some of the Bruntwood Group's product areas within a specific city. The Bruntwood Group also

experiences competition in certain product areas from major institutional United Kingdom property investors. Major institutional property investors tend to own the freehold of certain large properties and compete in certain Bruntwood Group product areas. Their properties are typically targeted towards larger single occupier properties let on longer lease terms.

- In recent years, new entrants (such as WeWork) into the Manchester and Birmingham serviced office markets have provided some competition in the property sector. However, despite some aggressive price pressure from competitors, the Bruntwood Group's serviced space occupational and pricing statistics have held up strongly. The Bruntwood Group believes the two key factors to explain this are increased demand and that the principal offering of those new competitors is something that the Bruntwood Group has been offering its clients for many years, but the Bruntwood Group believes it has been able to retain its competitive advantage of catering for all scale of customer demand through the depth of property ownership that the Bruntwood Group has in these cities.
- The Bruntwood Group believes its strategy uniquely positions it within its market to focus on multi-tenanted properties let to customers on shorter lease terms that are regularly reviewed and extended or replaced as the customers' needs dictate. This strategy aims to ensure that the Bruntwood Group is not exposed to the loss of any one customer or the gradual erosion in property value as longer leases move towards expiry.
- Following the 2008 financial crisis and related regulatory developments, UK banks are increasingly well capitalised and lending parameters within the current economic cycle have been more restrained with banks providing senior lending only to a maximum loan to value ratio of 65 per cent. This has been beneficial to the Bruntwood Group, as it has historically sought to finance its portfolio

within that range, whereas should there be more highly leveraged market entrants that are in competition with the Bruntwood Group, then they may find themselves unable to access funding at comparable rates of interest as the market moves.

Outlook

- The commercial real estate markets of the regional cities of the United Kingdom are the core market of the Bruntwood Group. In those markets, commercial pricing (with the exception of pure retail) has been stable in recent years, despite macroeconomic factors (such as Brexit). The Bruntwood Group's property portfolio largely consists of so-called "upper secondary" properties, and, as at the date of the Prospectus, has a valuation yield range of approximately 5 per cent. to 9 per cent. This compares favourably to other asset classes, such as prime property, where regional valuation yields are approximately 5 per cent., and in particular as compared to the 10 year UK Gilt rate which has been hovering at around 0.5 per cent. in recent years. The Bruntwood Group believes its

portfolio offers a reasonable return on investment as compared to other asset classes of a comparable risk profile.

- In terms of occupation of its properties, the Bruntwood Group's vacancy statistics remain at low levels and enquiry levels remain high. Whilst the UK outlook for economic growth is generally positive, the Bruntwood Group remains vigilant to any potential slowdown that may occur. Even in the 2008 financial crisis, the retention levels in the Bruntwood Group's portfolio held up well, with companies opting to stay put rather than taking on the risk of a move. Any downturn in the economy could potentially result in a decrease in the headline rent per square foot of some of its properties and/or an increase in the concessions that need to be offered to customers, either of which could reduce cash flow and lower valuations. However, the Bruntwood Group maintains covenant headroom within each of its borrowing facilities which it believes are adequate to weather an economic downturn. The Bruntwood Group has never breached a banking covenant in its 43-year history.

Further Information

Holding the Bonds

The Bonds will be held in custody for you by your Authorised Offeror, or as may be arranged by your stockbroker or financial adviser.

How to trade the Bonds

The Bonds are expected to be listed on the Official List of the UK Listing Authority and admitted to trading on the regulated market of the London Stock Exchange plc.

The Bonds are also expected to be eligible for the London Stock Exchange's electronic Order Book for Retail Bonds (the "ORB").

The ORB was launched in response to private investor demand for easier access to trading bonds with the aim of providing a transparent and efficient mechanism for UK retail investors to access the bond markets. The Bonds are tradable instruments and prices will be quoted in the market during trading hours (8.00am to 4.30pm London time).

The Bonds are expected to be supported in a market-making capacity by Peel Hunt LLP.

Market-making means that, throughout the trading day, a person will quote prices for buying and selling the Bonds. Peel Hunt LLP will be appointed as registered market maker through the ORB (www.londonstockexchange.com/exchange/prices-and-markets/retail-bonds/retail-bonds-search.html) when the Bonds are issued.

Investors should, in most normal circumstances, be able to sell their Bonds at any time, subject to market conditions, by contacting their stockbroker.

As with any investment, there is a risk that an investor could get back less than his/her initial investment or lose his/her initial investment in its entirety. See the section headed "Key Risks of Investing in the Bonds" on pages 10-11 of this Information Booklet.

Pricing information for sales and purchases of the Bonds in the market will be available during market hours (8.00am to 4.30pm London time) and in normal market conditions on the ORB.

As noted above, notwithstanding that Peel Hunt will act as market-maker (as explained above), if trading activity levels are low, this may severely and adversely impact the price that an investor would receive if he/she wishes to sell his/her Bonds.

Fees

Bruntwood Bond 2 plc will pay certain fees and commissions in connection with the offer of the Bonds. Peel Hunt LLP and City & Continental Ltd will receive a fee of 1.5% of the aggregate nominal amount of the Bonds to be issued, of which each Authorised Offeror will be entitled to receive a fee of 0.375% of the total face value of the Bonds issued and allotted to such initial Authorised Offeror.

Authorised Offerors may charge expenses to you in respect of any Bonds purchased and/or held. These expenses are beyond the control of Bruntwood Bond 2 plc and are not set by Bruntwood Bond 2 plc. Neither Bruntwood Bond 2 plc, the Guarantors nor (unless acting as an Authorised Offeror) are the Joint Lead Managers responsible for the level or payment of any of these expenses.

Taxation of the Bonds

The tax treatment of an investor will depend on his or her individual circumstances and taxation law and practice at the relevant time (and so may be subject to change in the future). Prospective investors should consult their own independent professional tax advisers to obtain advice about their particular tax treatment in relation to the Bonds.
